High Schools

Jalisco is amongst the top 5 states with more capacity for scientific and technological innovation.

75% of all the industries in Jalisco are located in Guadalajara's Metropolitan Area.

Our Network

The University Network of Jalisco

UdeG is a public and autonomous university system in the Mexican state of Jalisco that combines an international scope and vision with a strong commitment to society.

A tradition of constant innovation and quality has made of UdeG one of Mexico's leading institutions of higher education. The university's undergraduate, graduate and research programmes are designed to promote a sustainable and inclusive social development. It is indeed a fundamental institution in the formation of human resources and in the production of scientific and technological knowledge both regionally and nationally. Its extension programmes make Mexican culture, arts, sports and our unique heritage more accessible to the citizens of Mexico and the rest of the world.

Academic Areas of study

Arts, Architecture and Design

Biological and Agricultural Sciences

Economic and Management Sciences

Exact Sciences and Engineering

Health Sciences

Social Sciences and Humanities

Our Students

At UdeG, our students gain a unique perspective that generates a positive impact in their personal life and contribute to the development of the local and global society.

Students hosted by UdeG come from all over the world. This diversity enriches our cultural and ethnic environment and improves the international profile of our community.

Our Faculty Members

The University of Guadalajara recognizes its faculty members as a key resource to promote and develop new ways of thinking through research and teaching. We are proud of being one of the top universities in the country with the highest number of nationally renowned researchers.

University Center for Arts, Architecture and Design
Guadalajara, Jalisco, Mexico.

CUAAD

www.cuaad.udg.mx

Structural
Technologies
for Architecture
Research Center

CUAAD is dedicated to training creative, prudent, and committed professionals in the fields of arts, architecture and design.

The cultural diffusion by our community promotes ethical values in order to enhance equity and respect for all members of society.

Its students are committed to having a positive impact on their social settings through artistic and cultural performance and through the use of scientific research in order to create sustainable environmental frameworks for a better social development.

13 undergraduate programmes:

- Architecture
- Audiovisual Arts
- Performing Arts for Dance Expression
- Performing Arts for Theatrical Expression
- Visual Arts for Photographic Expression
- Visual Arts for Plastic Expression
- Interior and Atmosphere Design
- Fashion design
- Industrial design
- Design for Graphic Communication
- Design, Art and Interactive Technologies
- Music
- Urban Planning and Environment

15 graduate programmes:

Master's Degrees

- Processes and Graphic Expression in Architectural-Urban Projection
- Architecture Sciences
- Design and development of new products
- Industrial Design and Innovation
- Film Studies
- Management and Cultural Development
- Urbanism and Territory
- Ergonomics
- Education and Expression for the Arts
- Ethnomusicology
- Literacy
- Information Design and Digital Communication

Doctoral Degrees

- Territory and Sustainability City
- Art and Culture (Interinstitutional)
- Innovation for Sustainable Habitat

CUCBA

www.cucba.udg.mx

Center for
Behavioural
Studies and
Research

CUCBA is a university centre focused on academic training and research in the fields of biology, agriculture and the environment.

It promotes the production of high quality research and technological developments with emphasis on the understanding of the biological processes, management and sustainable use of natural resources.

It is committed to developing improvements in the agricultural production sector and the enhancement of animal, plant and environmental health.

5 undergraduate programmes:

- Agribusiness
- Biology
- Food Science
- Agricultural engineer
- Veterinary Medicine Zootechnics

- Livestock Production
- Seed Technologies
- Science in Food Safety
- Swine Production

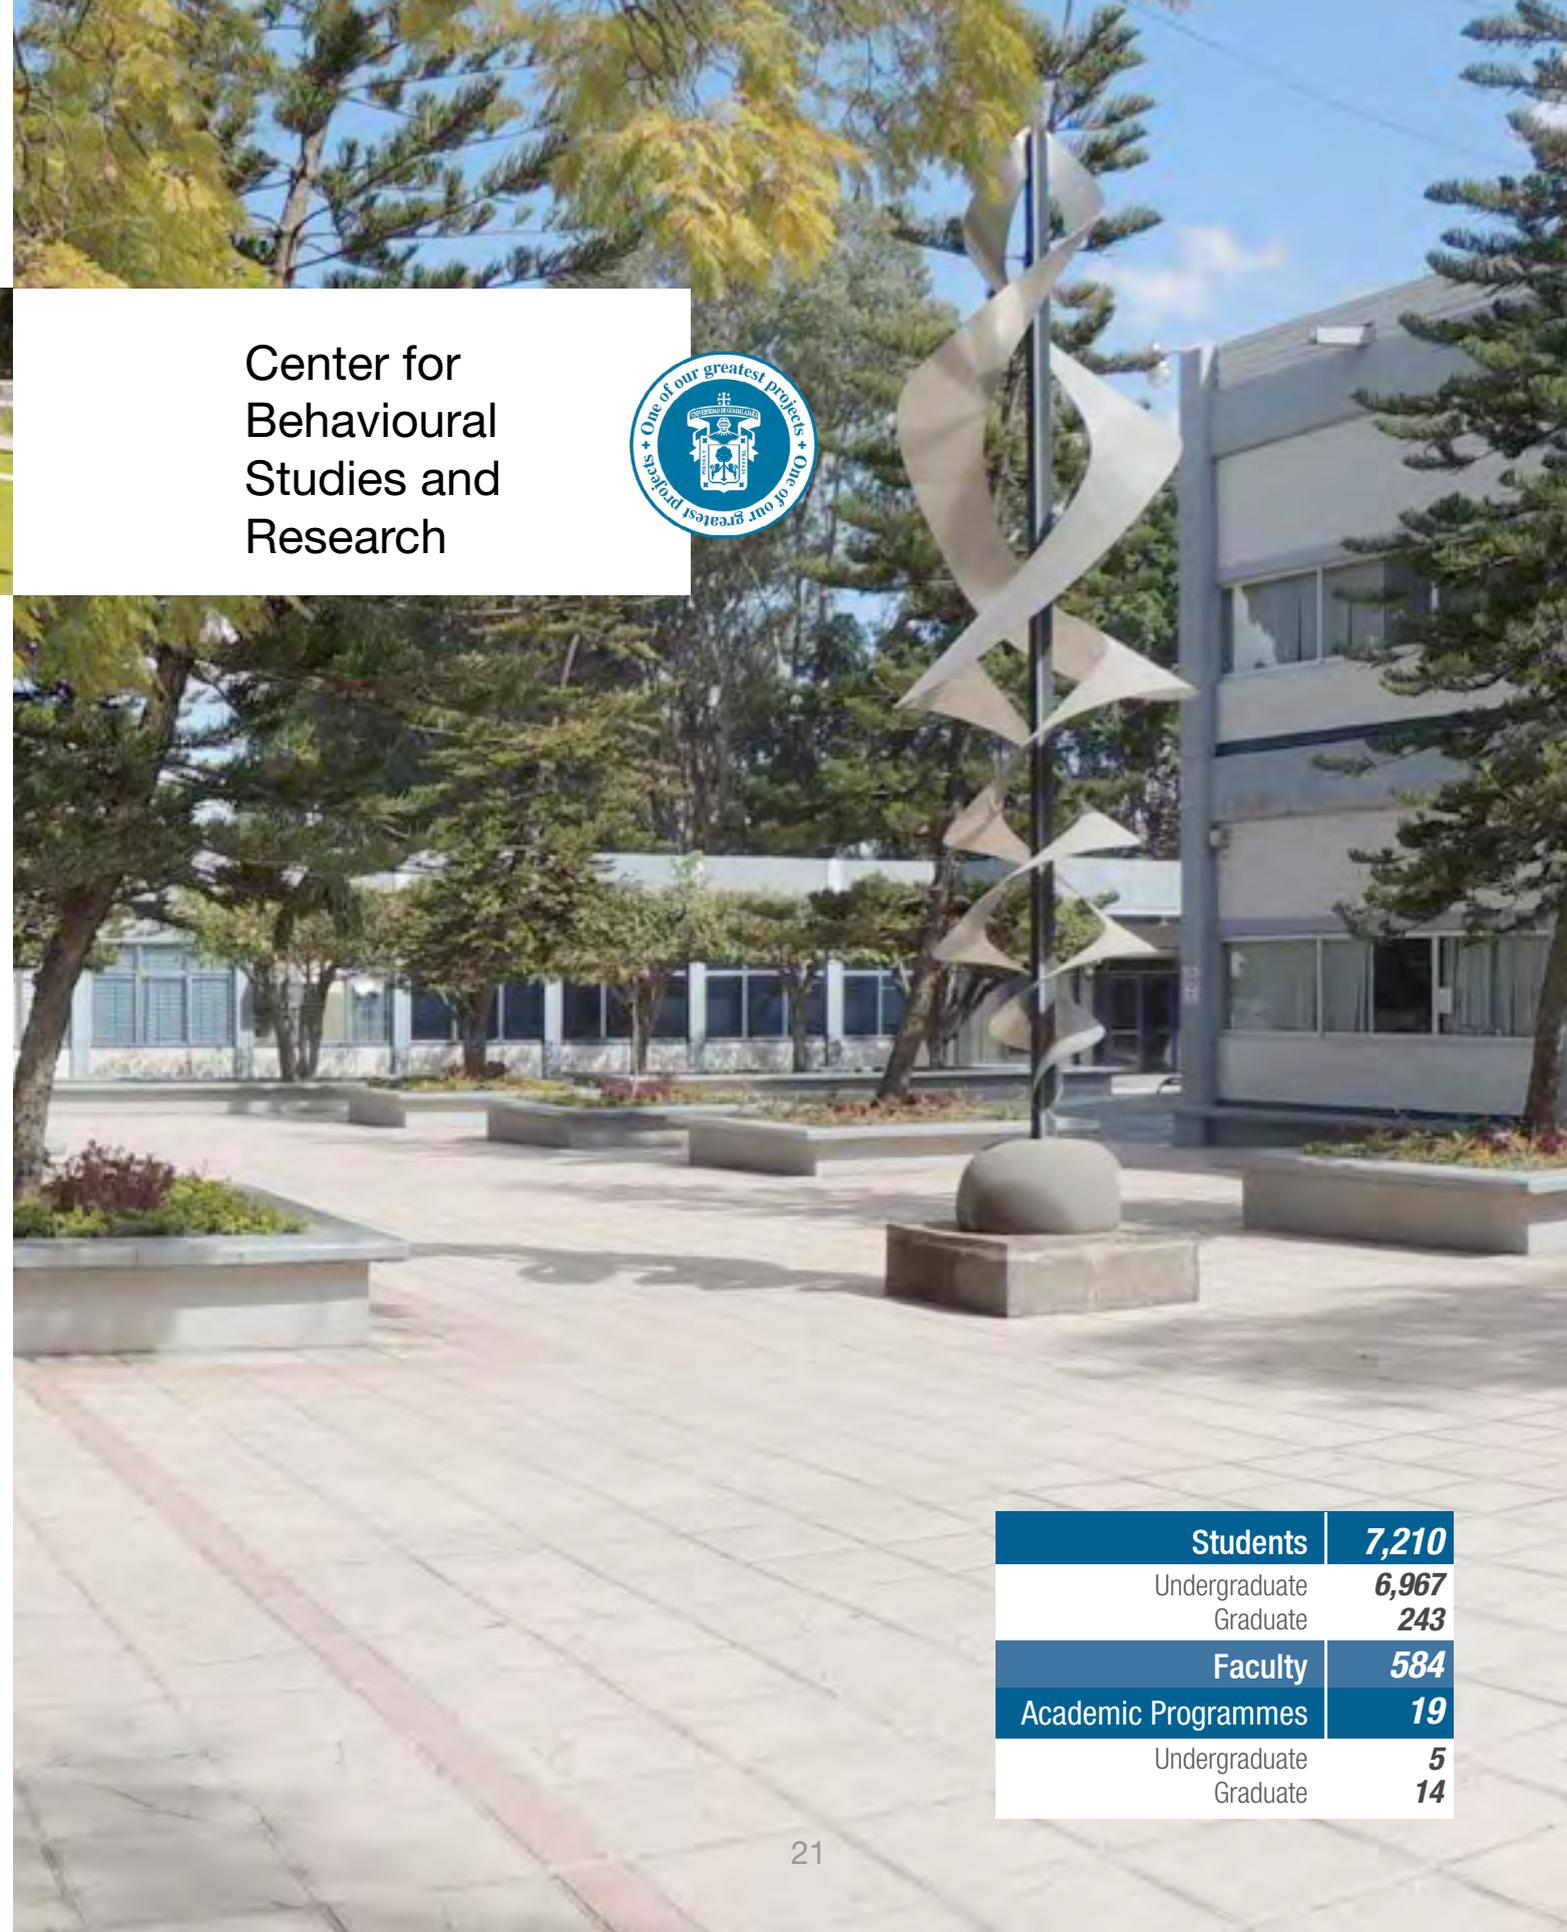

Doctoral Degrees

- Behavioral Science Orientation in Behavior Analysis
- Behavioral Science Orientation in Neurosciences
- Biosystematics, Ecology and Management of Natural and Agricultural Resources
- Ecophysiology and Genetic Resources

14 graduate programmes:

Master's Degrees

- Protected Agriculture
- Behavioral Sciences, Analysis of Conduct
- Behavioral Sciences, Neurosciences
- Environmental Education
- Environmental Health
- Biosystematics and Resource Management Natural and Agricultural

It is a university center that contributes to the search for better health, through the training of people interested in achieving a high professional competency level, capable of generating scientific knowledge for the benefit of the citizens.

We promote a link with the community to share plans, actions and programmes developed by our researchers, students and graduates for the development of the community.

14 undergraduate programmes in the following areas:

Undergraduate Programs

- Bachelor of Forensic Science
- Bachelor of Dental Surgeon
- Bachelor's Degree in Physical Culture and Sports
- Degree in nursing
- Bachelor's Degree in Nursing distance modality
- Bachelor of Nutrition
- Bachelor of Podiatry
- Degree in psychology
- Doctor, Surgeon and Midwife

Associate degrees

- Higher University Technician in Emergencies, security labor and rescue
- Higher University Technician in dental prosthesis
- Higher University Technician in radiology and imaging
- Higher University Technician in physical therapy
- Higher University Technician in respiratory therapy

28 graduate programmes in the following areas:

Master's Degrees

- Human Nutrition with Mother-Child Orientation
- Socio-Medical Sciences
- Molecular Biology in Medicine

- Gerontology
- Health Sciences for Adolescents and Youth
- Occupational Health Sciences
- Public Health
- Health Services Management
- Educational Psychology
- Health Psychology
- Neuropsychology
- Quality and Safety Management in the Services of Health
- Physical Education and Sports
- Oral Pathology and Medicine
- Management Nursing

H i g h l i g h t s a n d P r o j e c t s

University of Guadalajara, Los Angeles

A project intended to provide extended education opportunities for Mexican and Hispanics in the United States.

It is aimed at intensifying exchange programmes and scientific cooperation between the University of Guadalajara and higher education institutions in the United States.

Civil Hospitals of Guadalajara

It form a public Hospital Complex that offers comprehensive medical services.

It is also a teaching hospital dedicated to training highly qualified human resources

Guadalajara International Book Fair

The most important publishing gathering in Ibero-America and a cultural festival.

It is aimed at professionals and the general public alike; authors from all continents and languages participate.

There is a different Guest of Honour (a city, a region or a country) every year.

Guadalajara International Film Festival

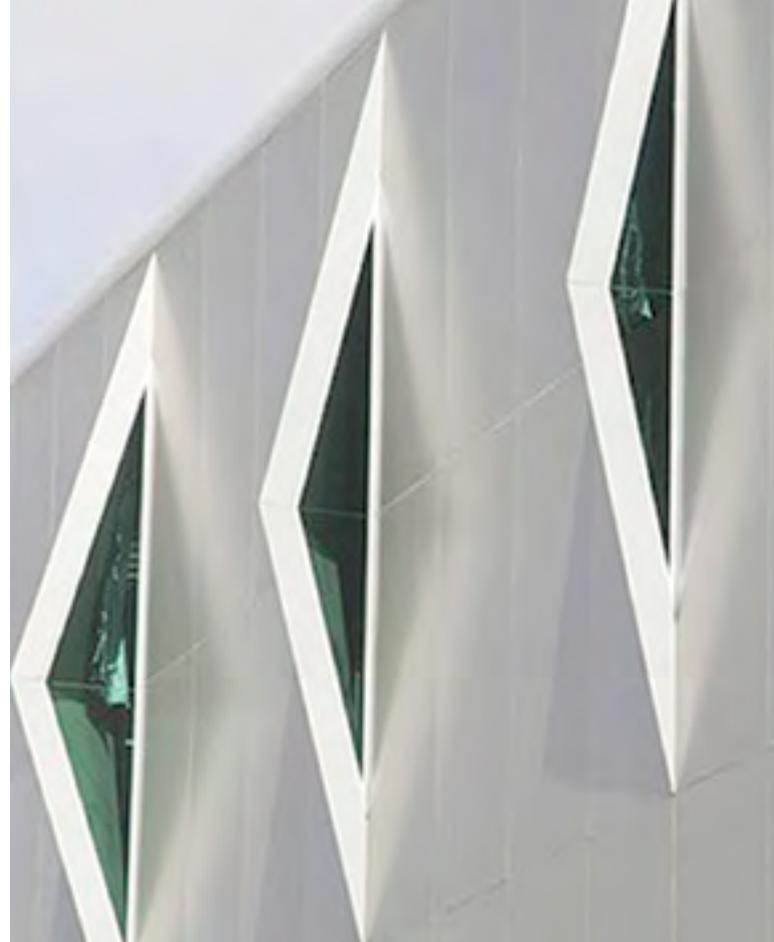

A cultural event and a showcase for the appreciation, promotion and distribution of Mexican and Ibero-American films.

It serves as a forum for the creative exchange between professionals, filmmakers, critics, students and audiences.

centro
cultural
universitario
University Cultural Centre

H i g h l i g h t s a n d P r o j e c t s

University Cultural Center

The University Cultural Center is a compound that hosts cultural, scientific and commercial activities.

It is conceived to consolidate an urban district that will bring arts and culture closer to the public.

Transdisciplinary Instrumentation and Services Center (CITRANS)

It is a state of the art research center dedicated to analyze and advise the regional industries.

Some of the target industries are biology, chemistry, physics, pharmaceutical and tequila, among others.

Environmental Sciences Museum

It is a project that will focus on the human well-being and conservation of the environmental diversity through the following areas: water, energy, biodiversity and food.

The main objective of the museum is to promote a culture of sustained development.

University's Programme for Energy Transition

It focuses on the following topics:

- **Energy conservation**
- **Energy efficiency**
- **Renewable energies**
- **Solar power plants**

One of Latin Americas' most important concert halls, it is located in Guadalajara's Metropolitan Area and it's part of one of the biggest cultural projects of the University of Guadalajara, "The University Cultural Center".

Diana Theater

As part of the University Cultural Centre, the Diana theatre is a venue created in order to fulfil the cultural promotion needs in the state of Jalisco.

Esquina Franklin

It is a space in which the local community can participate in cultural, educational and entertainment that promote the strong bond between the United States and Mexico. Offers various cultural and learning programs English. It also has an advisory center EducationUSA to guide students who they want to study in the United States.

MUSA

The Museum of Arts (MUSA) it's a venue with an important architectonic heritage and with a highly historical significance in an unsurpassable location. It is conceived as a place where art and culture in general coexist as living entities to enable the enjoyment of aesthetic experiences and the interaction between the public and the arts.

From **high level competition** to recreation activities

Leones negros is the soccer team of the University of Guadalajara since the 70's.

**Be part
of our
community**

**Shaping
the
future**

UDG global

**And after all,
isn't it possible to
make the most
wonderful painting
with just any pencil
on any paper?**
